## Diving safety & participation policy

At Black & White Diving, safety is our priority. We reserve the right to modify, restrict or refuse participation in any dive if, in the professional judgement of our instructors or dive leaders, a diver's experience, qualifications, equipment, demonstrated skills or readiness do not meet the safety requirements of the planned dive. This decision may be made at any stage, regardless of certification level or previous experience.

For dives deeper than 40 metres, an appropriate helium-based mix must be used, selected according to the planned depth, dive profile and applicable training standards.

All diving activities are subject to our safety procedures and the final approval of the responsible instructor or dive leader.
